The diagram illustrates a central rectangle with a total width of 30 and a total height of 30. This rectangle is divided into four colored regions: A (purple, 16x16), B (green, 8x18), C (red, 8x12), and D (red, 12x12). The regions are arranged such that A and B are on the right, and C and D are on the left. The dimensions of each region are labeled: A (16, 16), B (8, 18), C (8, 12), and D (12, 12). The total width of the central rectangle is 30, and the total height is 30. Surrounding the central rectangle are five small yellow boxes containing the numbers 8, 4, 5, 3, 6, and 2. The boxes are arranged in a pattern: 8 is to the left of the central rectangle; 4, 5, and 3 are in a small cluster to the right; 6 is to the right of that cluster; and 2 is below the 4, 5, and 3 cluster.
