The diagram illustrates a large geometric figure composed of several colored rectangles and a collection of smaller yellow rectangles. The large figure is divided into six main regions labeled A, B, C, D, E, and F.

- Region A (Pink):** A large central rectangle with a width of 26 and a height of 30. It is labeled with '36' in the top right and 'A' in the center.
- Region B (Green):** A rectangle on top of the left side of Region A, with a width of 12 and a height of 22. It is labeled with '12' on the left and 'B' in the center.
- Region C (Red):** A rectangle on the bottom right of Region A, with a width of 8 and a height of 8. It is labeled with '36' in the top right and 'C' in the center.
- Region D (Red):** A rectangle on the left side of Region A, with a width of 10 and a height of 30. It is labeled with '10' in the top right and 'D' in the center.
- Region E (Green):** A rectangle on the bottom left of Region A, with a width of 10 and a height of 10. It is labeled with '10' in the top right and 'E' in the center.
- Region F (Cyan):** A complex shape on the right side of the large figure, composed of several rectangles. It has a total width of 24 and a total height of 30. It is labeled with 'F' in the center.

Surrounding the large figure are 18 smaller yellow rectangles, numbered 1 through 18, arranged in a scattered pattern. The numbers 1 through 18 are also present within the large figure, indicating a specific arrangement or sequence.
