The diagram illustrates a geometric configuration with a central square divided into colored regions and surrounded by smaller yellow squares. The regions are labeled as follows:

- Region A (Pink):** A large square with side length 28.
- Region B (Green):** A square with side length 8.
- Region C (Red):** A square with side length 32.
- Region D (Red):** A square with side length 30.
- Region E (Green):** A square with side length 6.
- Region F (Green):** A square with side length 8.
- Region G (Green):** A square with side length 7.
- Region H (Green):** A square with side length 9.
- Region I (Green):** A square with side length 16.
- Region J (Cyan):** A square with side length 36.
- Region K (Cyan):** A square with side length 12.

The yellow squares are labeled with numbers 1 through 22, representing various smaller squares and rectangles surrounding the main figure. The numbers 13680 and 43326 are likely the areas of the large square and the central square, respectively.
