RES
2025

The diagram shows two overlapping rectangles, A and B, illustrating the distributive property. Rectangle A is cyan, rectangle B is green, and their intersection C is light green. The dimensions are labeled as follows:

- Rectangle A (cyan) has a width of 12 and a height of 56.
- Rectangle B (green) has a width of 10 and a height of 20.
- The intersection of A and B, labeled C (light green), has a width of 10 and a height of 12.
