Diagram illustrating a geometric figure (a large rectangle) divided into several colored regions (A, B, C, D) and labeled with dimensions and numbers.

The figure consists of a large pink rectangle A with dimensions 74 (width) and 28 (height). Inside A, there is a blue rectangle C with dimensions 24 (width) and 24 (height). To the right of C, there is a green rectangle B with dimensions 20 (width) and 5 (height). Above C, there is a green rectangle D with dimensions 10 (width) and 16 (height). A small yellow rectangle with the number 4 is located above D. Another yellow rectangle with the number 2 is located to the left of D. The number 10 is also labeled near the top left of D. The number 10 is also labeled near the top right of D. The number 6 is labeled near the top right of C. The number 5 is labeled near the top right of B. The number 50 is labeled near the top right of B. The number 20 is labeled near the bottom right of B. The number 13 is labeled near the bottom right of C. The number 24 is labeled near the bottom left of C. The number 24 is labeled near the bottom right of C. The number 22 is labeled near the top left of A. The number 28 is labeled near the top right of A. The number 74 is labeled near the top left of A. The number 16 is labeled near the top right of D. The number 3 is labeled near the top left of D. The number D is labeled near the top right of D. The number A is labeled near the top right of A. The number B is labeled near the top right of B. The number C is labeled near the top right of C.
