RES
2024

The diagram shows a rectangular lot with a total width of 46 and a total depth of 26. The lot is divided into three main sections: a blue section 'C' on the left, a pink section 'A' on the right, and a green section 'B' at the bottom. A yellow box with the number '2' is located above the lot.

Dimensions and Area Calculations:

- Section C (Blue):** Width = 20, Depth = 26. Area = $20 \times 26 = 520$.
- Section A (Pink):** Width = 46, Depth = 26. Area = $46 \times 26 = 1196$.
- Section B (Green):** Width = 24, Depth = 6. Area = $24 \times 6 = 144$.
- Section D (Green):** Width = 12, Depth = 12. Area = $12 \times 12 = 144$.

The total area of the lot is the sum of the areas of sections A, B, and C: $1196 + 144 + 520 = 1860$.
