RES
2025

The diagram illustrates a geometric composition of a large rectangle. The central components are:

- A red square labeled **D** with side length 14.
- A pink rectangle labeled **A** with width 42 and height 24.
- A blue rectangle labeled **C** with width 24 and height 24.
- A green rectangle labeled **F** with width 10 and height 16, positioned above **D**.
- A green rectangle labeled **E** with width 42 and height 12, positioned below **A**.

Surrounding these central shapes are several smaller yellow squares and rectangles, each labeled with a number indicating its value or dimension:

- To the left of **D**: Yellow squares labeled 9, 6, and 5.
- Above **D** and **F**: Yellow squares labeled 3, 2, 8, 10, 13, 11, and 12.
- To the right of **D**: A yellow square labeled 4.
- Below 6 and 5: A yellow square labeled 7.

Dimensions and area values are explicitly labeled throughout the diagram, such as 14, 28, 10, 16, 42, 24, 12, 2, 8, 13, 11, 12, 9, 6, 5, 7, and 4.
