RES
2024

The diagram illustrates a complex geometric figure composed of several colored regions and a central pink polygon. The regions are labeled as follows:

- Region D (Blue):** A rectangle on the left with a width of 30 and a height of 29. The top edge is labeled 30, and the left edge is labeled 29.
- Region C (Red):** A rectangle attached to the right side of Region D, with a width of 16 and a height of 16. The top edge is labeled 16, and the left edge is labeled 16.
- Region E (Green):** A rectangle attached to the right side of Region C, with a width of 28 and a height of 16. The top edge is labeled 28, and the right edge is labeled 16.
- Region B (Green):** A rectangle attached to the right side of the main pink polygon, with a width of 10 and a height of 16. The top edge is labeled 10, and the right edge is labeled 16.
- Region F (Green):** A rectangle attached to the bottom side of the main pink polygon, with a width of 25 and a height of 16. The bottom edge is labeled 25, and the right edge is labeled 16.
- Region G (Green):** A rectangle attached to the bottom side of Region F, with a width of 14 and a height of 22. The bottom edge is labeled 14, and the right edge is labeled 22.
- Region A (Green):** A rectangle attached to the bottom side of Region G, with a width of 25 and a height of 8. The bottom edge is labeled 25, and the right edge is labeled 8.
- Region F (White):** A rectangle attached to the bottom side of Region A, with a width of 21 and a height of 4. The bottom edge is labeled 21, and the right edge is labeled 4.

The central pink polygon has a total width of 67 and a total height of 42. The bottom edge of the pink polygon is labeled 27. The right edge of the pink polygon is labeled 20. The top edge of the pink polygon is labeled 67. The left edge of the pink polygon is labeled 42.
